About Me

Frontend Developer specializing in **scalable React and React Native** applications. Focused on performance, UI architecture, and production-grade user experiences. Experienced in delivering production systems in high-scale startup environments, including **EdTech** and **FinTech** platforms serving **1M+ users**.

Strong focus on **performance**, **scalability**, and **product-driven engineering**, with hands-on experience across **frontend**, **backend**, and **mobile development**, from **architecture** to **deployment**.

Passionate about building real-world products, improving **user experience**, and collaborating closely with **product and engineering teams** to ship impactful features.

EXPERIENCE

MedSkills (EdTech / Medical Training Startup)

Jun 2022 – Sep 2023

Full-Stack Developer (MERN Stack)

Remote

Developed the initial version of Doctidox (now evolved into QCM Connect), the core platform that enabled MedSkills to launch its digital education offering for medical students and contributed to its early growth and startup recognition.

- Designed and developed the initial version of the educational platform Doctidox, focused on exam preparation through structured course revision and interactive QCM-based learning.
- Built a scalable full-stack application using **MongoDB, Express.js, React, and Node.js (MERN stack)**.
- Implemented interactive quiz features and a personalized dashboard to track student progress and performance.
- Reached **5,000+ students within the first year**, supporting strong early adoption and platform growth.
- Collaborated with multidisciplinary medical educators to ensure high-quality and relevant academic content.
- Deployed and managed the platform on a VPS using **Docker**, ensuring reliability and scalability.

Temtem (Fintech / Rewards APP)

Jun 2025 – Present

Mobile Developer (React Native)

Remote

Developing Temtem (B2C) and Temtem Pro (B2B), two mobile applications that enable users to earn rewards from everyday purchases and help brands drive customer engagement, sales, and loyalty.

- Developed and maintained cross-platform mobile applications using React Native for both consumer (Temtem) and business (Temtem Pro) products, supporting a platform reaching **1M+ users** and **300K+ daily active users**.
- Implemented receipt scanning system enabling users to earn instant digital rewards, integrated with a secure in-app wallet ecosystem.
- Built and optimized voucher redemption flows (mobile recharge, bill payments, shopping, and digital services), improving user engagement and retention.
- Contributed to Temtem Pro, enabling brands to manage customer interactions, sales channels, and loyalty programs at scale.
- Integrated secure payment systems supporting VISA, MasterCard, AMEX, and CIB, enabling both international and local transactions across Algeria.
- Developed QR code-based payment features and supported multi-region deployment across Algerian markets.
- Built and integrated native modules and third-party SDKs (e.g., TikTok SDK), enabling media sharing (images/videos) across Social media apps and user tracking.
- Developed a custom native panorama processing module converting video streams into a single image, significantly improving long receipt scanning accuracy in Temtem Pro.
- Led migration of Temtem Pro from React Native 0.68 to 0.81, and contributed to upgrading Temtem to 0.83, improving stability and maintainability.

- Migrated large codebases from JavaScript to TypeScript, improving type safety, scalability, and long-term maintainability.
- Refactored state management from legacy Redux to Redux Toolkit and Zustand, reducing complexity and improving architectural scalability.
- Optimized application performance across both apps, improving responsiveness and overall user experience under high traffic conditions.
- Collaborated closely with backend and product teams to deliver scalable, high-impact features aligned with business and user needs.

EDUCATION

University of 8 May 1945 Guelma	2023
<i>Master Degree in Computer Science</i>	Algeria

University of 8 May 1945 Guelma	2021
<i>Bachelor Degree in Computer Science (Information Systems & Software Engineering)</i>	Algeria

CERTIFICATIONS

- Complete React Developer in 2024 (Zero to Mastery Academy)
- JavaScript: The Advanced Concepts (Zero to Mastery Academy)
- Responsive Web Design (freeCodeCamp, 300 hours)

SKILLS

Languages: JavaScript, TypeScript

Frontend: React.js, React Native, Redux Toolkit, Zustand, Material Ui, Shadcn, gluestack, TanStack

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL

Tools: Docker, Git, VPS, Figma

SOFT SKILLS

Problem Solving • Critical Thinking • Team Collaboration • Communication • Adaptability • Product Thinking • Time Management • Self-Learning • Attention to Detail

LANGUAGES

Arabic (Native), English (Conversational), French (Basic)
